

# The UK has become the world's hottest tech hub in 2019

21 August 2019

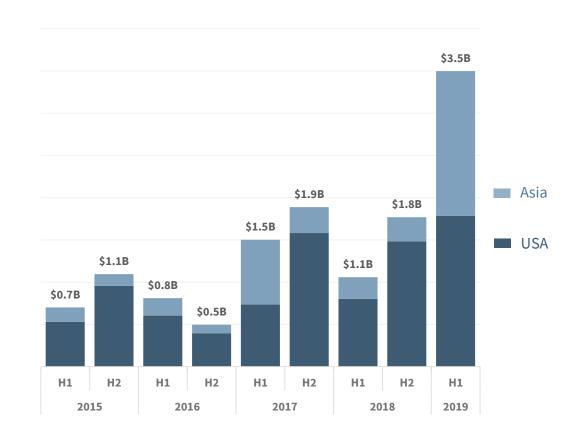

# Investment in UK startups is reaching new heights, mainly driven by rounds above \$100 million (while rounds below \$100 million also continue growing).

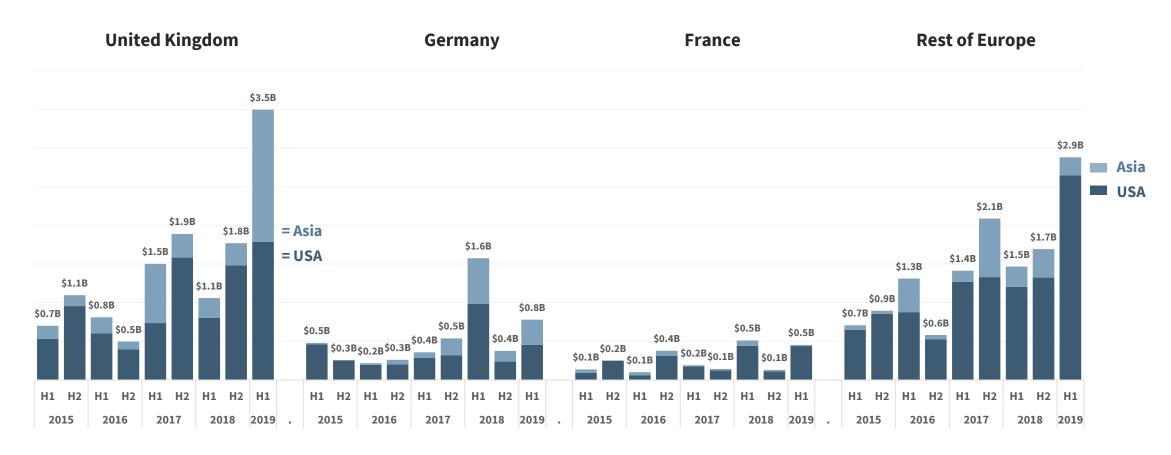

### Investment from US and Asian investors reached \$3.5 billion in the first half of 2019, more than each of the full year 2018 and 2017.

#### Venture capital investment from the USA and Asia into the UK

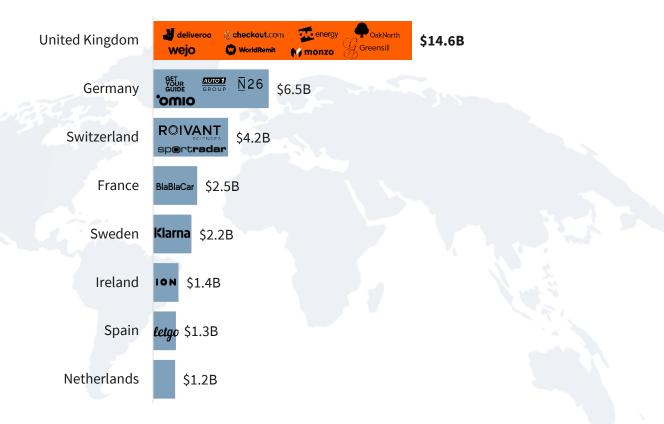

# While all of Europe is experiencing increased interest from US and Asian investors, the trend is the strongest in the UK.

## Since 2013, UK startups have raised more from US and Asian investors than most of Europe combined.

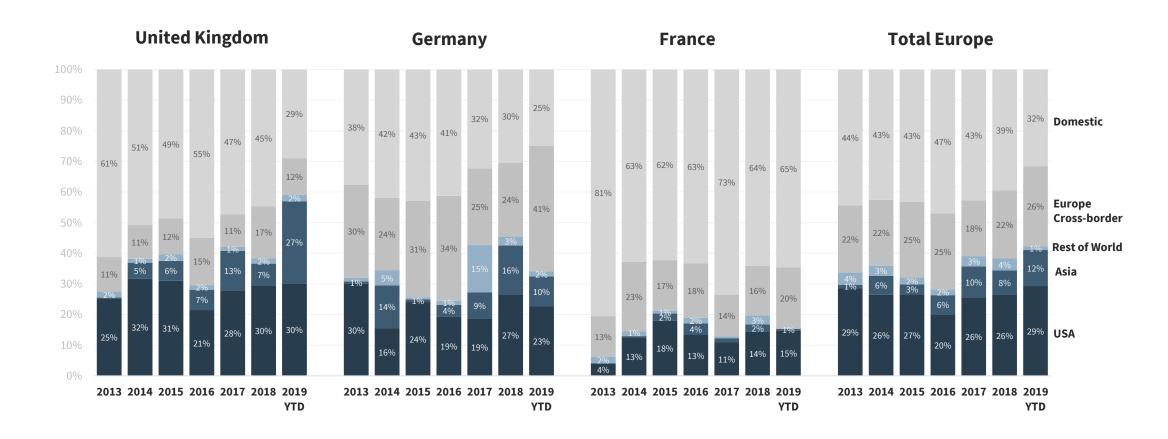

#### Investment from USA and Asia into Europe (2013 - 2019 YTD)

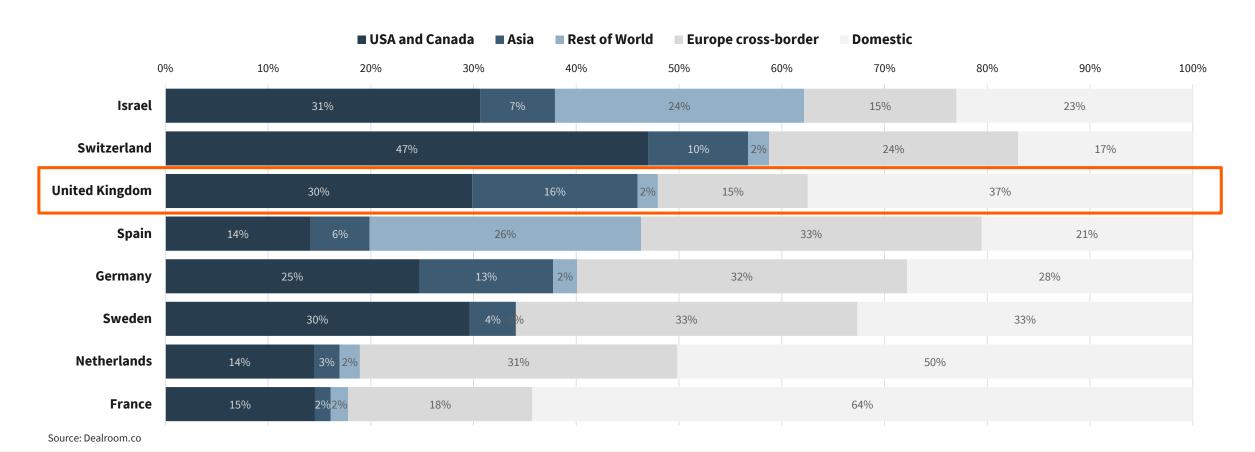

# As a result, the funding mix in the UK has dramatically shifted. By contrast, France's funding mix has remained relatively stable.

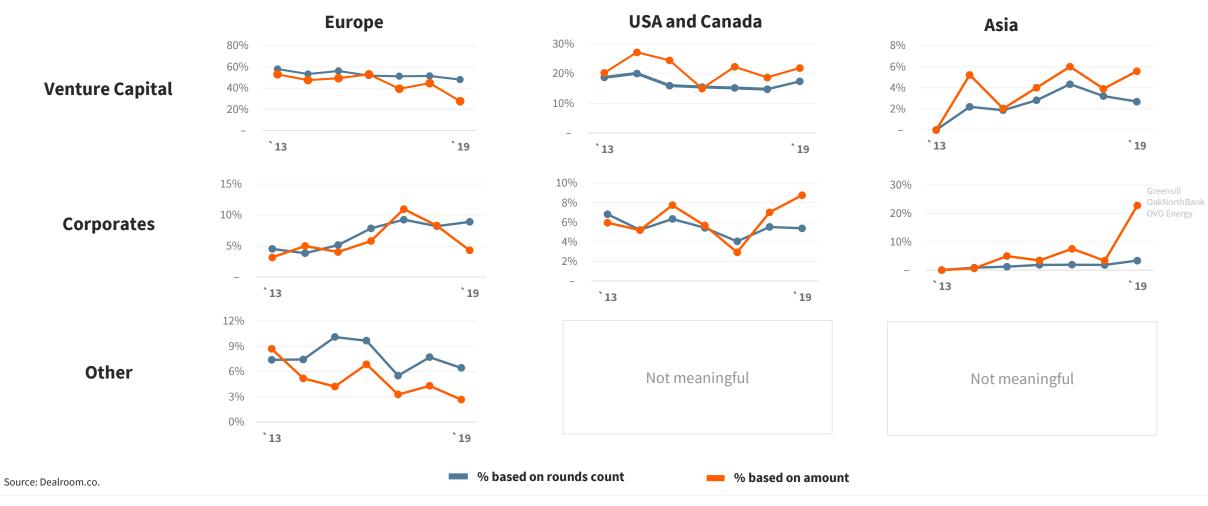

# The UK has had a wider mix of investors, compared to Germany, Sweden and France which rely more on domestic and European funding.

% of foreign investment (2018 - 2019 YTD) by country and source

### Both VCs and Corporates are responsible for the increased investment out of Asia and the US into the UK.

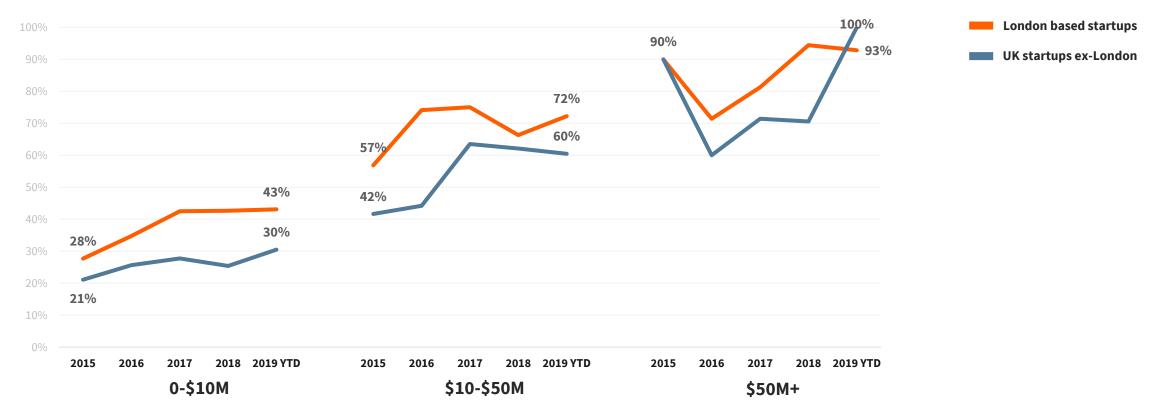

% of capital invested by region and investor type

## The shift in funding mix is driven by both an increase in the number of larger rounds, as well as an increase of foreign investment within round sizes.

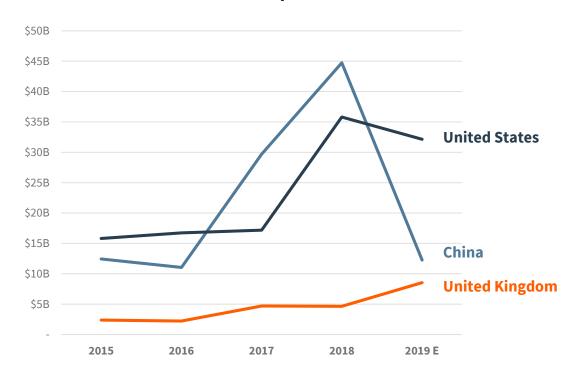

#### % of rounds with at least one foreign investor

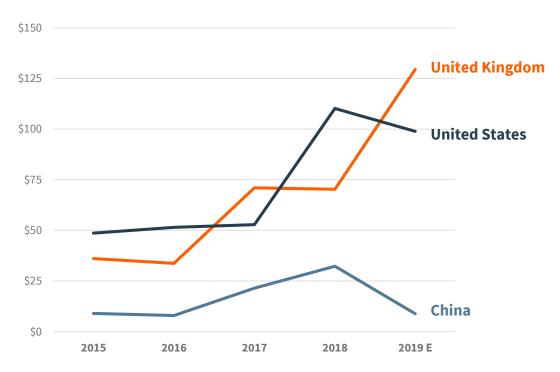

### Of the top three global tech hubs, the UK attracts nearly as much non-domestic capital as the much bigger China. The UK is ahead of the USA on a per capita basis.

#### Non-domestic venture capital investment

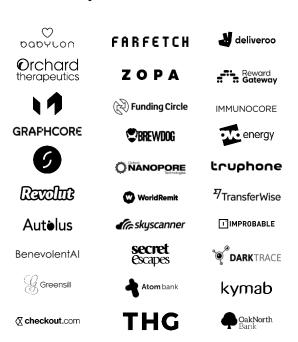

#### Non-domestic venture capital per capita

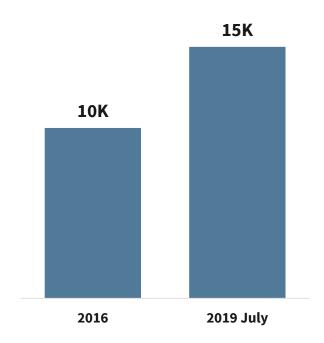

Is investment from US and Asia good for UK tech? Since 2016, valuations tripled as these startups scale globally, benefiting founders & early (UK) investors. The top 30 startups alone added 5K new jobs and now provide 15K jobs.
