**REQUEST FOR INTERNATIONAL JUDICIAL ASSISTANCE TO COMPEL
EVIDENCE FROM A UNITED KINGDOM
WITNESS PURSUANT TO THE 1970 HAGUE CONVENTION ON THE TAKING OF
EVIDENCE IN CIVIL AND COMMERCIAL MATTERS**

FROM THE UNITED STATES DISTRICT COURT FOR THE SOUTHERN
DISTRICT OF NEW YORK TO THE JUDICIAL AUTHORITY IN THE UNITED
KINGDOM, GREETINGS:

The United States District Court for the Southern District of New York, in the United States of America, presents its compliments to the Senior Master of the High Court (Queen's Bench Division) of England and Wales, and requests assistance in obtaining evidence to be used in a civil proceeding before this Court in the above-captioned matter (the "Action").

This request is made pursuant to, and in conformity with *the Hague Convention of 18 March 1970 on the Taking of Evidence Abroad in Civil or Commercial Matters* (the “Convention”), to which both the United States and the United Kingdom are a party.

The purpose of this Letter of Request (the “Request”) is to obtain testimony for use at trial from a non-party witness who resides within your jurisdiction, Mr. John Hyman, the former “Chief Investment Adviser” for Telegram Group Inc. (one of the Defendants) during the relevant period at issue in this lawsuit. The District Court considers that the evidence sought is directly

relevant to the issues in dispute and that the witness has been identified by Plaintiff as likely to have information and documents that may be used to support its claims against Defendants. It is expected, based on existing timetables, that the District Court will schedule a hearing on a motion for a preliminary injunction and other case dispositive motions on February 18 and 19, 2020, and a potential trial at a later date.

It has been demonstrated to this Court that justice cannot be done amongst the parties to the Action without the testimony of Mr. Hyman. In conformity with Article 3 of the Convention, this Court respectfully submits the following Request.

This Court requests the assistance of an appropriate English judicial officer to compel the appearance of Mr. Hyman to give oral sworn testimony and to produce documents on the subject matters and for the date ranges as described in this Request.

It is requested that the appropriate judicial officer of England and Wales issue such orders as are necessary to implement this Request for Mr. Hyman to appear before an examiner or other appropriate judicial authority in England and Wales to take his oral sworn testimony at deposition in conformity with the procedures of the U.S. Federal Rules of Civil Procedure or such other procedures as are acceptable to you.

The testimony and document production sought is material to the issues now pending in the Action. Plaintiff has approached Mr. Hyman, through his counsel in the United Kingdom, in order to ascertain whether he would be willing to testify voluntarily in the United States of America. Although counsel for Mr. Hyman at first indicated that Mr. Hyman would voluntarily sit for a deposition in this matter, he has since not responded to additional entreaties voluntarily to appear for a deposition.

This Court is authorized by Title 28, United States Code, sections 1781 and 1782 to extend similar assistance on request of the judicial authorities of England and Wales.

The United States District Court for the Southern District of New York, through the offices of the representatives of Plaintiff, is prepared to reimburse your court and/or office for all costs incurred in executing the instant Request and the assurance of its highest consideration.

The particulars of this Hague Evidence Request are as follows:

I.

7. NATURE AND PURPOSE OF THE PROCEEDINGS AND SUMMARY OF THE FACTS

The Plaintiff United States Securities and Exchange Commission (“SEC”) is the United States agency charged, *inter alia*, with the civil enforcement of the federal securities laws of the United States of America. In a civil lawsuit pending in the United States District Court for the Southern District of New York for which oral testimony is sought pursuant to this request, the Plaintiff alleges that Defendants violated certain provisions of the United States’ federal securities laws by conducting an unregistered offer and sale of digital assets that are securities under the federal securities laws of the United States.

Defendants Telegram Group Inc. and TON Issuer Inc. (“Telegram” or “Defendants”) are British Virgin Islands incorporated companies, with principal places of business in Dubai and Tortola, respectively.

The SEC alleges that, from January to March 2018, Telegram raised more than \$1.7 billion from 171 investors (the “Initial Purchasers”), including \$424.5 million from 39 United States investors, through an unregistered offer and sale of digital assets known as “Grams” (the “Offering”). Initial Purchasers entered into agreements pursuant to which Telegram promised to deliver 2.9 billion Grams (out of five billion minted). The SEC further alleges that those offers and sales, which were not registered with the SEC, were the first step in achieving Telegram’s stated goal—the mass distribution of Grams to the investing public worldwide.

The SEC further alleges that Grams are “investment contracts” and, therefore, “securities” under United States federal securities laws. The SEC alleges that Telegram’s

marketing materials reasonably led purchasers of Grams to view them as an investment into a common enterprise from which they could hope to profit based on Telegram’s efforts to develop a business and, therefore, as “investment contracts.” The SEC alleges that Telegram led reasonable investors to expect that they would be able to profit from their investment in Grams in various ways. The SEC alleges that Telegram intended all along that the Initial Purchasers would act as conduits for distributing Grams into the secondary market, and did not take reasonable steps to ensure that Initial Purchasers were purchasing Grams not with a view to resell them. The SEC also alleges that, to the contrary, Telegram intended all along that Initial Purchasers distribute their Grams as broadly as possible. Telegram’s sale of Grams were part of Telegram’s project, known as the “TON Blockchain,” to create an “ecosystem” of applications revolving around Grams.

The SEC further alleges that Telegram did not register the Offering of Grams with the Commission, and that no exemption from the registration requirements of the Securities Act applies to Grams. The SEC also alleges that Telegram did not prepare, file, or distribute any registration statement or disclosure document required under the federal securities laws.

The SEC seeks a judgment permanently enjoining Telegram from future violations of Sections 5(a) and 5(c) of the Securities Act of 1933 (“Securities Act”) [15 U.S.C. §§ 77e(a), 77e(c)]; an order that Telegram disgorge ill-gotten gains received from the violative conduct and prejudgment interest thereon; civil monetary penalties; and such other equitable relief as the Court deems just and proper.

The Defendants’ Answer

Defendants substantially deny Plaintiff’s allegations and/or deny knowledge or information sufficient as to form a belief as to the truth or falsity of those allegations, or state that the Complaint contains conclusions of law to which no response is required.

Current Schedule for Resolution of this Matter

This action was commenced on October 11, 2019 with the filing of a Complaint and of an Emergency Application by the Plaintiff for a Temporary Restraining Order and a Preliminary Injunction enjoining Defendants from ongoing and future violations of Sections 5(a) and 5(c) of the Securities Act. Based on current timetables, a hearing on the Plaintiff’s motion for a preliminary injunction, and on any other motions as the parties may file based on current court schedules, is expected to take place on February 18 and 19, 2020. A trial in this matter could take place thereafter.

Relevance of the Evidence Sought

The SEC seeks the testimony of, and to obtain documents from, John Hyman (“Hyman”). Mr. Hyman was employed by Defendants during parts of the period at issue in this lawsuit, and was described by Defendants’ founder as Telegrams’ “Chief Investment

Adviser” with respect to Grams. During his time as Telegram’s Chief Investment Adviser, Mr. Hyman communicated with potential and actual investors in Grams about that investment. Mr. Hyman is currently employed by “Gram Vault,” an entity that appears to be “a provider of safekeeping, trading and staking services to investors in the Telegram blockchain.” The evidence sought from this witness thus pertains to this Court’s determination of whether Defendants violated United States securities laws.

The Witness From Whom Testimony is Sought

Mr. Hyman was the “Chief Investment Adviser” for Telegram during the Offering. Attached as Exhibit A are emails showing Mr. Hyman’s involvement in the Offering. Mr. Hyman communicated with one investor about the “grey market” (or, secondary trading market) for Grams, even before Grams were distributed to Initial Purchasers. Attached as Exhibit B is a transcript of these communications. Mr. Hyman is currently employed at Gram Vault. Attached as Exhibit C is an email discussing Gram Vault and Mr. Hyman’s relationship to Telegram and Grams. [REDACTED]

The subject matter for the examination of Mr. Hyman will relate to his knowledge of and/or involvement in the following:

- (1) Mr. Hyman’s educational background, employment history, professional qualifications, personal preparation for the deposition (to include who has paid for his legal expenses related to the deposition, and any contacts he may have had with the parties, their lawyers, insurers or representatives, but excluding any privileged communications);
- (2) Mr. Hyman’s role at Telegram;
- (3) Instructions given to Mr. Hyman in relation to the Offering of Grams;
- (4) Telegram’s inducements to potential investors during the Offering of Grams;
- (5) [REDACTED] rams;
- (6) Mr. Hyman’s view of Telegram’s activities;
- (7) Mr. Hyman’s understanding of the TON Blockchain;
- (8) Mr. Hyman’s communications and statements with potential and actual Initial Purchasers of Grams;
- (9) Mr. Hyman’s understanding of secondary market trading in Grams;
- (10) Mr. Hyman’s discussions with other individuals at Telegram regarding the secondary market trading in Grams;
- (11) Telegram’s efforts to ensure that Initial Purchasers invested Grams for their own accounts, and not for resale;
- (12) Compensation paid by Telegram to third parties with respect to the Offering and/or Grams;
- (13) Telegram’s non-privileged attempts, if any, to determine the legality of the Offering;
- (14) Telegram’s use of funds raised in the Offering;
- (15) Telegram’s efforts to develop uses for Grams;
- (16) Telegram’s efforts to create a secondary market for trading in Grams;

- (17) The activities of other Grams stakeholders to create a secondary market for trading in Grams;
- (18) His investment in Grams;
- (19) The expectations of investors in purchasing Grams;
- (20) The sales or offers to sell Grams by any Initial Purchasers to third parties;
- (21) Telegram's planned future and ongoing efforts with respect to Grams and the TON Blockchain;
- (22) Gram Vault's involvement with Telegram and Grams;
- (23) Gram Vault's efforts with respect to Grams and the TON Blockchain;
- (24) Telegram's communications with potential and actual investors in Grams;
- (25) Gram Vault's communications with potential and actual investors in Grams;
- (26) Mr. Hyman's compensation for his work at Telegram and Gram Vault;
- (27) The ownership and corporate structure of Gram Vault; and
- (28) Gram Vault's communications with any third parties with respect to Grams.

8. EVIDENCE TO BE OBTAINED
OR OTHER JUDICIAL ACT TO
BE PERFORMED

The taking of testimony for use in court of John Hyman concerning his prior employment by Telegram and the unregistered offering Plaintiff alleges Defendants engaged in. This individual is not a Defendant and is only a witness in this matter. The SEC is not seeking any relief against this individual.

III.

9. IDENTITY AND ADDRESS OF
PERSONS TO BE EXAMINED

John Hyman
114a Cromwell Road, 3rd Floor
London SW7 4AG
United Kingdom

10. QUESTIONS TO BE PUT TO
PERSONS TO BE EXAMINED
OR STATEMENT OF THE
SUBJECT MATTER ABOUT
WHICH THEY ARE TO
BE EXAMINED

The subject matter for the examination of Mr. Hyman will relate to his knowledge of and/or his involvement in matters (1) – (28) as listed in Section 7 above under the heading “The Witness from Whom Testimony is Sought”.

11. DOCUMENTS OR OTHER
PROPERTY TO BE INSPECTED

The SEC requests that Mr. Hyman produce to the Examiner and to Plaintiff's Counsel, no later than 7

calendar days before the date on which the Examination is due to commence:

1. The communications via texts or messaging apps, between January 1, 2018, and the present, between Hyman and any of the following Telegram employees who participated in the Offering: Pavel Durov, Shyam Parekh, and Ilya Perekopsky;
2. The communications, between January 1, 2018, and the present, between Hyman and the entities who invested in the Offering for whom he served as chief investor advisor to Telegram;
3. Communications, between May 1, 2018, and the present, between Hyman and any employee of Gram Vault with respect to the Offering or to Grams;
4. Documents, dated between February 1, 2018, and the present, [REDACTED]; and [REDACTED]
5. The written agreements, and communications evidencing agreements, governing the relationship between Hyman and Telegram.

12. ANY REQUIREMENT THAT THE EVIDENCE BE GIVEN ON OATH OR AFFIRMATION AND ANY SPECIAL FORM TO BE USED

The Witness should be examined under oath or affirmation, or in the alternative, should be instructed of the consequences for the giving of untruthful and false answers under the laws of England and Wales

13. SPECIAL METHODS OR PROCEDURES TO BE FOLLOWED

The District Court respectfully requests, with respect to the oral testimony and production of documents being sought:

- (1) that the High Court appoint an Examiner for the purpose of compelling oral testimony from the witness for use at trial;
- (2) that the parties' representatives or their designees, a court reporter and a videographer be permitted to be present during the examination; that their representatives or designees be permitted to examine and cross-examine the witness directly; and that a court reporter and videographer be permitted to make a verbatim record of the proceedings; and

(3) in connection with the taking of testimony of the witness, Plaintiff has permission to refer the witness to documents previously produced or available in the Action.

14. REQUEST FOR NOTIFICATION OF THE TIME AND PLACE FOR THE EXECUTION OF THE REQUEST It is requested that testimony be taken at such place, date, and time as ordered by the Senior Master and/or as otherwise scheduled by the representatives of the witness and the respective representatives of the parties.

15. REQUEST FOR ATTENDANCE OR PARTICIPATION OF JUDICIAL PERSONNEL OF THE REQUESTING AUTHORITY AT THE EXECUTION OF THE LETTER OF REQUEST None.

16. SPECIFICATION OF PRIVILEGE OR DUTY TO REFUSE TO GIVE EVIDENCE In relation to claims for privilege under the laws of the United States or the laws of England and Wales, regard shall be had to Section 3 of the Evidence (Proceedings in Other Jurisdictions) Act 1975.

For the avoidance of doubt, under the laws of the United States, a witness has privilege to refuse to give evidence if the evidence discloses a confidential communication between that party and an attorney for that party that was made for the purpose of obtaining legal advice.

Parties also enjoy limited privileges on other ground not relevant here such as communications between physician and patient, psychotherapist and patient, husband and wife, or clergy and penitent.

U.S. laws also recognize a privilege against criminal self-incrimination.

Outside the strict area of privilege, certain limited immunities are available that may place restrictions on the giving of evidence, such as the limited protection of documents created as the work-product of attorneys during or in anticipation of litigation.

17. FEES AND COSTS
(ARTICLE 14)

The fees and costs incurred which are reimbursable under the second paragraph of Article 14 or under Article 26 of the Convention will be borne by the *U.S. Securities and Exchange Commission*.

Thanks for the follow up. I've been discussing the position with Mr Hyman and he is willing to give a deposition. I'm aware that you/your colleagues are in London over the next couple of weeks; so please suggest a few potential slots for Mr Hyman to give his deposition and I will confirm which one(s) are available.

Given the passage of time, it would obviously be useful for Mr Hyman to refresh his memory of the events that you are interested in. To ensure we make most efficient use of the limited time available, if there are specific areas where you know you will want Mr Hyman's evidence, please provide me with details, so that we can reach out to Telegram to see if they will agree to provide Mr Hyman with access to relevant documents.

Dear Matt

Thanks for the question.

The total supply has not changed and stays at 5 billion grams.

The Telegram team has decided that it plans to distribute 60.9 per cent to the ecosystem rather than 44 per cent as previously planned. We believe this will add to the liquidity of grams and speed up adoption.

Kind regards John

Hi John, thanks for the update. We will discuss internally and get back with next steps.

One quick question: does the increased raise size change the total supply of Grams? I.e. you had previously planned to sell up to 44% of 5B grams to investors. The sale you describe calls for selling roughly 2.2B pre-sale Grams and 800M public-sale Grams (correct me if wrong).

Matt

Dear Matt,

We would like to update you on where things stand with the Telegram Open Network (TON) private placement and where the process will go from here.

We are humbled by the great reception you and other investors have given to TON and the offering. At the close of our process to gather expressions of interest, we have received expressions of interest for over US\$3.75 billion of Grams from approximately one hundred investors. Of equal relevance is the broad and balanced distribution of investor interest. We are on track to achieve an equally distributed holder base between Asia, Europe and the United States.

The combination of the scale and quality of the demand has led us to rethink our strategy for both this transaction and the next round.

We have decided to increase the volume of this round to US\$850 million. Based on the formula in the White Paper, this results in a price of US\$0.37756101 per Gram. We selected this offering size not only to give us sufficient capital to develop TON and the associated functionality within Telegram Messenger over the next number of years, but also to facilitate an allocation process that will ensure that every investor that participated in it and is eligible to receive an allocation will receive one. Throughout the process we have emphasized the importance of Grams being widely distributed, which we believe will allow Grams to function as a decentralized currency.

In terms of the next round, we expect that it will start in mid-March 2018, and we expect that it will be sized at US\$1.15 billion. In this round, Grams will be offered on a private placement basis in exchange for fiat currency. All investors in this round will purchase at the same price relative to one another (using the average price per Gram sold in the round, as per the formula in the White Paper). As an illustration, if the round is US\$1.15 billion, the price to investors will be approximately US\$1.45 per Gram. Grams issued through this round will not be subject to any lock-up provisions.

Below you will find a document that confirms your indication of interest based on these revised terms. We would like this returned by close of business in your region on **January 17th**.

Thereafter the anticipated process is as follows:

- **Wednesday 17 January (COB)** – Deadline for you and other investors to submit their signed indication of interest (attached below).
- **Thursday 18 January** – Indicative allocations and purchase agreement sent to investors along with a process letter.
- **Thursday 25 January** – Deadline for investor acceptance and signature to purchase agreement.
- **By Friday 9 February** – Payment and closing of all purchases.

Thank you for your interest in TON and the offering.

Kind regards,

Dear Aaron,

We, the Telegram team, would like to take this opportunity to update you on the progress of the TON project.

First, thank you for the trust you have placed in us. We can confirm that the proceeds of your purchase totaling 25 million USD have been received in full and you have been allocated an entitlement to 66,214,464.3 Grams, according to the terms of the purchase agreement.

As you know, we closed the initial round of the TON private placement in early February, raising a total of US\$850 million at a price of US\$0.37756101 per Gram. We achieved our goals of having a diverse distribution of investors, in both number and geography.

We are now preparing to launch the next round of the offering. As described in the transaction documentation you received in the initial round, no more than US\$1.7 billion worth of Grams will be sold in this next round. Because of the initial round's oversubscription, the subsequent sale will be divided into two stages (Stage A and Stage B). The target size for each stage is still to be determined, but we currently anticipate offering US\$850 million of Grams in Stage A, at a price of US\$1.33003701 per Gram. Both stages of the subsequent round will be conducted in the form of a private placement. Unlike the Grams issued in the initial round, following the network launch there will be no lock-up on Grams issued in either Stage A or Stage B.

Our aim is to complete Stage A by the middle of March. We are pleased to say that preliminary interest from potential investors for Stage A already exceeds the target transaction size. We will continue to focus on having a diverse base of investors who can provide support and sponsorship for the TON project. We will do our best to ensure that any investor from the initial placement who wishes to participate in Stage A receives priority in the allocation process.

During the marketing process, our ability to comment publicly is restricted by applicable securities laws. We continue to ask that you also refrain from commenting publicly at this time.

We will shortly circulate updated transaction documents to you for Stage A. If you have any questions, you are welcome to contact us.

Thank you once again for your support. We look forward to continuing to work closely with you.

Regards,
John

Dear Blake

The WSJ article is not correct.

We decided for regulatory reasons that we will never do any form of direct public offering,

We plan to do one more private round most likely in September once Blockchain trials have commenced.

The public will be able to buy grams once network is working and wallets distributed but on a secondary basis not from Telegram directly.

Kind regards

John

| 14 | 599208 noreshkin | 436197187 John Hyman | 1/31/2018 9:44:38 PM(UTC+0) | Hi John, per Pavel's permission, we would like to include investments from some other interesting folks like Alexia Tsotsis (TC journalist, interviewed Pavel about Telegram in 2013), Matt Mullenweg (Wordpress), Om Malik (GigaOm), Naveen (Foursquare), Jeremy Stoppelman (Yelp), Lee Linden (Karma, Tapjoy). We estimate approximately 5-7M more in total. But since the closing in Elysium UP2398 LP. already happened a week ago, our legal firm Perkins Cole suggested us to set up a new entity. I know that the timing is pretty tight and was wondering if it is ok to submit US Rep. letters from new investors by Friday? We anticipate to have a bank account set up with all funds ready to wire by earlier next week. |

| 219 | 231002010 Stan_AM | 436197187 John Hyman | 2/6/2018 7:33:45 AM(UTC-0) | Very rough market. Am at the Satoshi Roundtable in Cancun with the core crypto folks, and while the HODL mentality is strong, people are concerned. Everyone sees fundamental support for BTC and ETH at some price. Many feels most ALTs beyond top 25 have zero intrinsic value and can go all the way. |
| 220 | 231002010 Stan_AM | 436197187 John Hyman | 2/6/2018 7:34:29 AM(UTC-0) | As stops are blown, people are being margin called and collateral is being liquidated. Broader market sell off not helping either. |
| 221 | 231002010 Stan_AM | 436197187 John Hyman | 2/6/2018 7:36:06 AM(UTC-0) | We bought some last friday, and bought a bit more today. Strong support for Eth around 400. BTC people feel like 3K is a strong fundamental support level. |
| 222 | 231002010 Stan_AM | 436197187 John Hyman | 2/6/2018 7:36:43 AM(UTC-0) | Let's technical trades in the market, so they act in unison when seeing same signals. Lots of RSI driven mentality. |
| 223 | 231002010 Stan_AM | 436197187 John Hyman | 2/6/2018 7:37:31 AM(UTC-0) | The other contributing factor is the regulators SEC getting hyper active last two weeks, which has caused many traditional players that were feeling around in the space to pause pending further developments. |
| 224 | 231002010 Stan_AM | 436197187 John Hyman | 2/6/2018 7:38:41 AM(UTC-0) | For TON, last week the secondary market was c. 0.70 and holding steady. Still unreal demand out there and folks were willing to pay a premium for access with a "clear title". |
| 225 | 436197187 John Hyman | 231002010 Stan_AM | 2/6/2018 7:39:30 AM(UTC-0) | Thanks please keep me posted on ton |

| 226 | 231002010 Stan_AM | 436197187 John Hyman | 2/6/2018 7:39:37 AM(UTC-0) | A chunk of the market believes that you will not have a second sale in march, and this will be the only round. This is good and bad. |
| 227 | 436197187 John Hyman | 231002010 Stan_AM | 2/6/2018 7:39:54 AM(UTC-0) | Got it. |
| 228 | 231002010 Stan_AM | 436197187 John Hyman | 2/6/2018 7:40:10 AM(UTC-0) | Good because the supply is constrained. Bad because then you need some other pricing mechanism at the margin. |
| 229 | 231002010 Stan_AM | 436197187 John Hyman | 2/6/2018 7:42:02 AM(UTC-0) | There have been a bunch of scams and fake offers of TON - people are cautious. Some thought part of the selloff last week was due to buyers exiting into fiat to buy TON, but I don't believe that and it would not have moved the market. |
| 230 | 436197187 John Hyman | 231002010 Stan_AM | 2/6/2018 7:42:15 AM(UTC-0) | No it's not that big |
| 231 | 436197187 John Hyman | 231002010 Stan_AM | 2/6/2018 7:42:44 AM(UTC-0) | Have you seen any ton trades yesterday |
| 232 | 231002010 Stan_AM | 436197187 John Hyman | 2/6/2018 7:45:11 AM(UTC-0) | Not that I am aware, but the market is not transparent and very fragmented. With your docs, it's impossible to do a clean transfer, so the trading I've seen has been relationship based, as you are essentially getting married to the counterparty for 18 months. Really interesting. |
| 233 | 231002010 Stan_AM | 436197187 John Hyman | 2/6/2018 7:46:21 AM(UTC-0) | When are you state side, would love to catch up. |

| 236 | 231002010 Stan_AM | 436197187 John Hyman | 2/7/2018 6:20:23 AM(UTC-0) | Both markets up, and some are optimistic. The core crypto folks still think this a bull trap and that prices can go much lower. They went through this in 2015-16 and think, we can be sideways for months. Surprisingly, most think we can get back to \$20K by end of year. Lots of retail shaken out, and the SEC/CFTC testimony is scaring the shit out of people as they are not leaving any sort of fairway for ICOs - Reg D or otherwise. |
| 237 | 231002010 Stan_AM | 436197187 John Hyman | 2/7/2018 6:20:50 AM(UTC-0) | Nothing on TON today - people just want to fund and get it done. |

| 243 | 231002010 Stan_AM | 436197187 John Hyman | 2/9/2018 4:01:05 AM(UTC-0) | Much the same, lots of folks scrambling to get allocations, including those that were denied over the last few days (people were using the deal as a calling card to their LPs and new potential LPs on their ability to get tight allocations, and some of them inevitably look weak for getting denied). Bid in the .70s range, with some ability to guarantee title. |

Hello Oleg,

Nice to meet you. Diogo will be back in town on July 1, so suggesting the first or second week of July - just let us know when works for you that week and I will send a calendar invite for everyone.

Thanks,
Tricia

Dear Diogo, it's great to meet you.
Megan, John, thank you for the introduction!

I'm Oleg, the CEO of [Gram Vault](#) and we are looking for a partner to help us to serve US customers.
Gram Vault is a provider of safekeeping, trading and staking services to investors in the Telegram blockchain.

Tricia, please let me know when Diogo is back in town so we can pre-schedule a call.

Hi Diogo -

As discussed, I'm pleased to connect you with John Hyman from Telegram. They are exploring custody solutions and are interested in meeting with you and your team. John, Diogo is the co-founder of [Anchorage](#). They have some of the top institutional investors on their platform already, and are taking a unique approach to custody, having come from Docker and Square previously.

Thanks.

-Megan

Subject: Telegram launch .

Dear Nicolas and Justin

I hope you are well. I wanted to update you on the progress of the Telegram project.

We are now very close to launch of the Telegram Open Network and the grams you invested in, it will occur by the end of October.

I wanted to propose a call with my team and whoever was appropriate on your side to go through the logistics and mechanics of the distribution and trading mechanics of the grams.

Please let me know when would be convenient for you.

Kind regards

John .
